## Measures of Effectiveness Information

All projects types were asked to completed MOEs #1 - #4. MOE #5 is for Road and Bridge; MOE #6 is for Bike / Ped; and MOE #7 is for Travel Demand / Systems Manage

1) Does the project contribute to the overall improvement of the regional transportation system? Yes

If yes, please explain: 159th St. is the only through north-south street in Andover other than Andover Rd., and is routinely used by East Wichita residents for school trips to the two new schools on 159th St. north of 21st St.

2) Does the project have a positive effect on air quality? Yes

If yes, please explain: The improvements will minimize congestion at intersections by providing dedicated left turn lanes, which reduce conflicts with through traffic.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation? Yes

If yes, please explain: The improvements include a 10 foot bicycle pedestrian sidewalk that connects to the Andover bicycle pedestrian path system.

4) Does the project address or help address a safety concern? Yes

If yes, please explain: The existing approach to the Kansas Turnpike Bridge does not have adequate sight distance. The existing roadway does not have shoulders or proper side slopes.

5) Does the project address a regional issue that is addressed in a WAMPO plan? Yes

If yes, please explain: LRTP Goal 1. Transportation System Mobility and Access The improvements will increase the connectivity and capacity of the road system between Wichita and Western Butler County. LRTP Goal 3. Highways, Streets, and Roads The improvements optimize the existing road network by adding capacity to an existing route. LRTP Goal 5. Bicycle and Pedestrian Transportation The improvements include a bicycle/pedestrian sidewalk that connects to existing facilities, and promote bicycle and pedestrian safety.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

7) Does the project address congestion and is identified in the WAMPO Congestion Management Process (CMP) and/or Intelligent Transportation Systems Regional Architecture (ITS-RA)?

If yes, please explain:

## Additional Information

Additional Information: This project was included in the TIP, LRTP, and Local CIP for MPO funding in 2013 until the last round of amendments forced it to be moved to the illustrative list.
