

Metropolitan Transportation Plan (MTP) 2035 Application Summary

Total Projects Received:	298
2010 - 2019:	191
2020 - 2029:	87
2030 - 2035:	20

Total Project Cost:	\$4,236,687,108
2010 - 2019:	\$2,092,085,890
2020 - 2029:	\$1,453,649,218
2030 - 2035:	\$690,952,000

Total Road Projects:	205
2010 - 2019:	124
2020 - 2029:	69
2030 - 2035:	12

Total Road Cost:	\$3,279,906,268
2010 - 2019:	\$1,819,973,550
2020 - 2029:	\$832,072,718
2030 - 2035:	\$627,860,000

Total Bridge Projects:	40
2010 - 2019:	32
2020 - 2029:	4
2030 - 2035:	4

Total Bridge Cost:	\$289,048,340
2010 - 2019:	\$164,338,340
2020 - 2029:	\$96,510,000
2030 - 2035:	\$28,200,000

Total Transit Projects:	13
2010 - 2019:	5
2020 - 2029:	4
2030 - 2035:	4

Total Transit Cost:	\$147,053,000
2010 - 2019:	\$51,651,000
2020 - 2029:	\$60,510,000
2030 - 2035:	\$34,892,000

Total Bicycle/Pedestrian Projects:	26
2010 - 2019:	22
2020 - 2029:	4
2030 - 2035:	0

Total Bicycle/Pedestrian Cost:	\$27,162,000
2010 - 2019:	\$24,103,000
2020 - 2029:	\$3,059,000
2030 - 2035:	\$0

Total Travel Demand/System Management Projects:	5
2010 - 2019:	4
2020 - 2029:	1
2030 - 2035:	0

Total Travel Demand/System Management Cost:	\$29,015,000
2010 - 2019:	\$26,765,000
2020 - 2029:	\$2,250,000
2030 - 2035:	\$0

Total Rail Projects:	6
2010 - 2019:	2
2020 - 2029:	4
2030 - 2035:	0

Total Rail Cost:	\$453,225,000
2010 - 2019:	\$2,225,000
2020 - 2029:	\$451,000,000
2030 - 2035:	\$0

Total Other:	3
2010 - 2019:	2
2020 - 2029:	1
2030 - 2035:	0

Total Other:	\$11,277,500
2010 - 2019:	\$3,030,000
2020 - 2029:	\$8,247,500
2030 - 2035:	\$0

Bicycle/Pedestrian Project Ranking Sheet

ID	Project Name	Total Project Cost	MOE #1	MOE #2	MOE #3	MOE #4	MOE #6
31	Kirby Park Loop: Meridian to Meridian	\$362,500					
33	Bel Aire Area: 37th St. to Central Park	\$4,300,000					
46	63rd St. S.: Plagens Carpenter Sports Complex to S. Seneca	\$359,000					
152	Andover Rd.: 13th St. N. to 21st St. N.	\$700,000					
153	Andover Rd.: Central Ave. to US-54	\$700,000					
155	Redbud Trail: 13th St. Sports Park to 1.75 Mile E. of Meadowlark Rd.	\$1,000,000					
156	Redbud Trail: Meadowlark Rd. to Indianola Rd.	\$1,000,000					
187	Arkansas River/Gypsum Creek Bike Path	\$1,800,000					
193	Redbud Trail: 159th St. E. to 13th St. Sports Park	\$1,400,000					
207	I-135: McAdams Park to Grove Park	\$1,700,000					
208	17th St. Railroad Corridor: I-135 to Oliver	\$2,750,000					
209	S. Wichita Area: MacArthur to 47th St. S.	\$925,000					
210	S. E. Wichita Area: K-96 to Harry and Greenwich Connection	\$3,350,000					
211	Delano Railroad Corridor: Seneca to Meridian	\$850,000					
212	Arkansas River E. Bank: John Mack Bridge to Waterwalk	\$850,000					
251	James St.: High Park to Glen Hills Addition	\$178,000					
252	Market St.: Arkansas River to Westview Dr.	\$270,000					
297	James St.: Woodlawn along Dry Creek (Phase 6 Bike Path)	\$1,590,000					

ID	Project Name	Total Project Cost	MOE #1	MOE #2	MOE #3	MOE #4	MOE #6
298	Woodlawn: Derby Recreation Center to Garrett Park (Phase 7 Bike Path)	\$401,500					
299	Bike Path along Madison Avenue (Phase 8)	\$110,000					
305	Rock Rd.: 87th St. S. to 103rd St. S.	\$820,000					
306	Oliver: Patriot Ave. to 47th St. S.	\$890,000					
319	Emporia St.: Main St. to 5th St.	\$470,000					
320	McLaughlin St.: 7th St. to 5th St.	\$152,000					
321	Meridian Ave.: 7th St. to 5th St.	\$104,000					
322	Lions Park: Main St. to Emporia St.	\$130,000

Project Purpose:

Main Project Type:

**Other Project Types
Included:**

If yes to the previous question, what other project type are included?

Road: <input type="text"/>	Rail: <input type="text"/>	Bicycle / Pedestrian: <input type="text"/>
Bridge: <input type="text"/>	Intersection: <input type="text"/>	Railroad Crossing: <input type="text"/>
Transit: <input type="text"/>	Interchange: <input type="text"/>	Travel Demand / System Management <input type="text"/>

If project occurs on a roadway what is the facility type?

Anticipated Year to Start Construction:

Is the project listed in any WAMPO or other regional plans?

If yes, list the name of plan(s) and page number:

Project Cost Information

Engineering Cost:

Annual Operating and Maintenance Cost:

Right of Way Cost:

Dedicated Funding:

Construction Cost:

If yes, please provide source and amount:

Total Project Cost:

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

2) Does the project have a positive effect on air quality?

If yes, please explain: Additional bicycle/pedestrian facilities would reduce the reliance on cars.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

4) Does the project address or help address a safety concern?

If yes, please explain: Keeping bicyclists and pedestrians off roadways could decrease the chance of incidents.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

Additional Information

Additional Information: The pathway would connect to future plans for a pathway included with street widening along S. Meridian.

If project occurs on a roadway what is the facility type? Anticipated Year to Start Construction: Is the project listed in any WAMPO or other regional plans? If yes, list the name of plan(s) and page number:

Project Cost Information

Engineering Cost: Annual Operating and Maintenance Cost: Right of Way Cost: Dedicated Funding: Construction Cost: If yes, please provide source and amount: Total Project Cost:

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

Bel Aire currently maintains a number of walking paths around various parks. However, there is no central trails system which links all the various paths together to allow for easy access to all parks, subdivisions, schools, government facilities and retail shops. In addition, the City of Wichita has several trail systems that end at the City of Bel Aire boundary. Such a system in Bel Aire would also link the City of Bel Aire and City of Wichita trails systems.

2) Does the project have a positive effect on air quality?

If yes, please explain:

Being able to walk or ride a bike around town eliminates the need for vehicle traffic and fuel. This cuts down on emissions from vehicles.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

4) Does the project address or help address a safety concern?

If yes, please explain:

Currently, many bicyclists and pedestrians walk on arterial streets along shoulders. This is very dangerous due to speeds of vehicles. In addition, some neighborhoods do not have sidewalks which places bicyclists or walkers in the street. Again, not an ideal situation. A master trails system will create a much safer environment for walkers/bikers to get around town, to schools and retail stores.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

The City of Bel Aire maintains several walking rails. However, they are small in scale and are for local users. There is no system than links to the City of Wichita, all schools both proposed and current as well as retail shopping. The proposed pathway would connect to existing paths in Bel Aire as well as with the City of Wichita.

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

It provides facilities for city and county residents, as well as completing a portion that could serve as a future connection regionally.

2) Does the project have a positive effect on air quality?

If yes, please explain:

Additional bicycle/pedestrian facilities reduces the reliance on cars.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

The bicycle/pedestrian facilities would be along a road, providing multi-modal access.

4) Does the project address or help address a safety concern?

If yes, please explain:

Bicyclists and pedestrians are currently using the gravel shoulder to access the complex.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

Andover Rd. is a major commuter route to employment, education, and shopping opportunities. The improvements would complete a 10 ft. bicycle/pedestrian path from US-54 to 21st St., including the central business district, and connect to existing paths to both City Parks and both Andover High School/Middle School campuses.

2) Does the project have a positive effect on air quality?

If yes, please explain:

The improvements will provide an off-street bicycle/pedestrian opportunity for non-motorized vehicles and pedestrians.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

4) Does the project address or help address a safety concern?

If yes, please explain:

Off-street bicycle pedestrian sidewalks remove bicycle traffic from the busy arterial streets.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

Andover Rd. is a major commuter route to employment, education, and shopping opportunities. The improvements would complete a 10 ft. bicycle/pedestrian path from US-54 to 21st St., including the central business district, and connect to existing paths to both City Parks and both Andover High School/Middle School campuses.

Additional Information

Additional Information:

This segment of Andover Rd. was constructed many years ago before the City adopted a policy of including a 10ft. bicycle/pedestrian sidewalk on every arterial street improvement project. The project would complete a grid on the mile-line arterial streets between US-54 & 21st St. North, and between 159th St. East and the Andover 13th and Central Parks.

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

Provide a bicycle/pedestrian connection to the Andover bicycle/pedestrian path system from the Wichita Redbud Trail. Provide a trail head for user conveniences.

2) Does the project have a positive effect on air quality?

If yes, please explain:

The improvements will provide an off-street bicycle/pedestrian opportunity for non-motorized vehicles and pedestrians to travel from Andover to Wichita.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

The project includes a parking lot for users to drive to and from the path, but park cars to walk or use bicycles.

4) Does the project address or help address a safety concern?

If yes, please explain:

Off-street bicycle pedestrian sidewalks remove bicycle traffic from the busy arterial streets.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

The project continues a bicycle/pedestrian connection to the Andover bicycle/pedestrian path system and 13th St. Sports Park from the Wichita Redbud Trail. This project was being contemplated by the Andover City Council when the Pathways Plan was adopted, but not approved until the maintenance agreement for the BNSF R/W was recently transferred from Butler Co. to the City of Andover.

Anticipated Year to Start Construction:

Is the project listed in any WAMPO or other regional plans?

If yes, list the name of plan(s) and page number:

Project Cost Information

Engineering Cost:

Annual Operating and Maintenance Cost:

Right of Way Cost:

Dedicated Funding:

Construction Cost:

If yes, please provide source and amount:

Total Project Cost:

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

 Yes

If yes, please explain:

Link to Wichita State Campus and Canal Hike and Bike Trail.

2) Does the project have a positive effect on air quality?

 Yes

If yes, please explain:

Encourages non-CO2 modes of transportation.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

 No

If yes, please explain:

4) Does the project address or help address a safety concern?

 Yes

If yes, please explain:

Provides off-street path for bike and pedestrian use.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

 Yes

If yes, please explain:

Corridor D, Page 38 and 50

 No

If yes, please explain:

Additional Information

Additional Information:

Sponsor Information

Project Sponsor / Agency: City of Wichita

Project Information

Project Name: Arkansas River E. Bank: John Mack Bridge to Waterwalk

Project Location: East Bank of Arkansas River

To: John Mack Bridge

From: Waterwalk

Project Description: Construct a recreational/multi-use path along the east bank of the Arkansas River.

Project Purpose: Construct 2.78 mile recreational/multi-use along the east bank of the Arkansas River.

Main Project Type: Bicycle/Pedestrian

Other Project Types Included: No

If yes to the previous question, what other project type are included?

Grid of checkboxes for project types: Road, Bridge, Transit, Rail, Intersection, Interchange, Bicycle / Pedestrian, Railroad Crossing, Travel Demand / System Management.

If project occurs on a roadway what is the facility type? Arterial

Anticipated Year to Start Construction: 2020 - 2029

Is the project listed in any WAMPO or other regional plans? No

If yes, list the name of plan(s) and page number:

Project Cost Information

Engineering Cost: \$100,000

Annual Operating and Maintenance Cost: \$4,000

Right of Way Cost: \$0

Dedicated Funding: No

Construction Cost: \$750,000

If yes, please provide source and amount:

Total Project Cost: \$850,000

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

 Yes

If yes, please explain:

Connects South Central Wichita to Waterwalk and other downtown destinations along the river.

2) Does the project have a positive effect on air quality?

 Yes

If yes, please explain:

Encourages non-CO2 modes of transportation.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

4) Does the project address or help address a safety concern?

 Yes

If yes, please explain:

Provides off-street path for bike and pedestrian use.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

 No

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

If yes, please explain:

Project improves the overall bike path system by providing a looped connection through High Park where many regional events such as Race for The Cure, Kidfest and the Summer Concert Series are held.

2) Does the project have a positive effect on air quality?

If yes, please explain:

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

If yes, please explain:

Connects bike path to established parking locations in High Park

4) Does the project address or help address a safety concern?

If yes, please explain:

No sidewalks currently exist on this corridor from the High School to High Park. The Path provides safe access to and from High Park for students and other pedestrians.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

If yes, please explain:

1) Does the project contribute to the overall improvement of the regional transportation system?

 Yes

If yes, please explain:

Connects the Arkansas River Corridor to the Bike Path System

2) Does the project have a positive effect on air quality?

 No

If yes, please explain:

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

 Yes

If yes, please explain:

Connects the Bike Path System to Parking at the Skate Park and proposed park at the Arkansas River. Also Connects Pedestrian/Bicycle traffic to canoe/kayak traffic.

4) Does the project address or help address a safety concern?

 Yes

If yes, please explain:

Provides a safe pedestrian bike corridor where sidewalks do not currently exist.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

 Yes

If yes, please explain:

Connects existing pathway system to the Arkansas River

Measures of Effectiveness Information

1) Does the project contribute to the overall improvement of the regional transportation system?

Yes

If yes, please explain: The project completes a missing link in the regional pathway system.

2) Does the project have a positive effect on air quality?

Yes

If yes, please explain: Increased usage of the pathway system reduces the use of motor vehicles and improves air quality.

3) Does the project include facilities for, accommodate, or connect more than one mode of transportation?

No

If yes, please explain:

4) Does the project address or help address a safety concern?

Yes

If yes, please explain: Improves bike/pedestrian safety in the road corridor.

6) Is the project on a route identified in the WAMPO Regional Pathway System Plan (RPSP) and identified as a priority missing link? Does the project connect existing pathways?

Yes

If yes, please explain: The project is identified in the WAMPO Regional Pathway System Plan as a priority missing link and connects pathways in Derby to pathways in Mulvane.
